Brahmacarya as a Value in Education System

Purnima Das

In this present era, we are facing a situation where the education system is becoming instrumental and mechanical. For giving priority on modernization system, we are coping with the present situation and changing our traditional life. In contemporary phase of civilized society most of the people have laptops, mobile phones, tabs etc. and people are thinking that these are essential parts of their life. Due to Covid-19 our present education system has become more depended on these mechanical devices and online processes. Most of the people are not more familiar with this online education procedure and many of us are trying to get rid of this confined online barrier. We do not find any time to judge that most of the people want to come out from this web world for their strong reservation in efficacy of teaching and learning with technological procedure. Actually, these people are losing or missing their friendly mental environment in work place. We are bound to have no choice than taking online education as an alternative method. But if we want to perpetuate this type of online education system, we have to lose our value system. Here value means moral code of conduct. The effects of degradation of value for adopting online procedure are not limited in a specific time or period, but it will continue for a longer period of time.

We are facing several types of physical and mental problems due to technology-based online learning system. In online education system we cannot properly express our sincere relationship between
