Action Taken Report on Feedback 2020-21

Due to the COVID-19 pandemic, traditional in-person classes were entirely suspended, necessitating a cessation of physical and infrastructural activities within the institution. Despite these unprecedented challenges, the institution made substantial efforts to ensure the continuity of academic programs. This included striving to complete the syllabus within the academic calendar and providing essential materials to students. Additionally, the institution enhanced access to electronic resources to facilitate remote learning. These measures aimed to mitigate the disruptions caused by the pandemic, ensuring that educational objectives were met and students could continue their studies with minimal interruption. The institution's commitment to maintaining educational standards in such a challenging environment underscores its adaptability and dedication to student success.
